

Day&Zimmermann

We do what we say.®

NUCLEAR

Day & Zimmermann is a leading provider of maintenance and construction services for the U.S. power industry. We deliver complex projects safely, on time, and within budget by leveraging wide-ranging capabilities, long-standing industry experience, innovative technology, and expert project teams. Our unique approach employs seamless processes that effectively manage all aspects of the plant lifecycle.

We specialize in servicing large, geographically dispersed assets for operators of industrial plants and perform more outage, maintenance, and modification work than any other provider. We deliver managed-task and capital project work, supplemental contingent workers, and specialty services to dozens of utility companies and manufacturers in the Fortune 500. Our alliance model approach promotes goal alignment to lower the total cost of plant ownership.

A LEADER IN NUCLEAR POWER

D&Z provides operations, maintenance, and capital project support for more than half of the country's nuclear fleet and supports Canada's Bruce Power Nuclear Generating Station. We have earned the trust and confidence of more than half of the nation's operating commercial nuclear plant owners with our total lifecycle solutions, from refueling outages and on-line support to capital project delivery. Customers rely on us for safe, dependable, and cost-predictable results.

NUCLEAR SERVICES

- Maintenance and modifications for on-line and refueling outages
- Capital projects planning and execution
- Project management, planning, and controls
- Flexible, scalable service models from contingent workforces to full managed-task delivery

Our large national footprint enables us to bring lessons learned and industry best practices to our customers as they navigate the economic and regulatory challenges facing the industry. D&Z operates as an extension of your own staff, effectively integrating skilled teams, advance technology, and innovative work processes to improve planning, productivity, and reliability across plant assets.

PROJECTS & CONSTRUCTION

Day & Zimmermann safely executes capital and construction projects with safe work practices and predictability. We incorporate our project management experts, skilled craft network, and robust processes and procedures to implement turnkey solutions for various projects.

- Large component removal and replacement
- SMR pre-construction services using integrated project delivery (IPD) principles and method and advanced work packages (AWP) development
- Digital control system modifications
- License extension projects
- Fire protection, prevention, and detection modifications
- Power uprates
- BRE/SOCA
- ISO 9001:2015 certified through DEKRA
- Fukushima-related electrical and mechanical modifications

TECHNICAL SERVICES

We self-perform a variety of technical services to streamline efficiency and eliminate redundancies in overhead, mobilization costs, field support equipment, and supervision.

- Welding and fabrication
- Valves maintenance, training, and I&C
- Radiological protection
- Ice condensers
- Security screening

ALLIANCE PARTNERSHIP APPROACH

The alliance approach builds a partnership between the contractor and utility that creates long-term value through organizational commitment and station goal alignment to help lower the total cost of plant ownership. These partnerships give our customers a unique perspective on the power industry. We identify and share best practices that can be implemented at sites we serve such as risk mitigation, safe work behaviors, issue resolution, and workforce development. It has resulted in performance improvements and cost savings for many customers.

Most of our alliance contracts have thrived for over a decade, and our most extended agreement has existed for over 40 years. Our performance has nurtured these partnerships based on mutual respect and trust, allowing for continued renewal year after year.

D&Z is one of the largest family-owned companies in the United States, specializing in construction, engineering, operations and maintenance, staffing, security, and defense for leading corporations and governments worldwide. Operating from more than 150 worldwide locations with \$2.7 billion in revenue, D&Z is ranked by Forbes as one of the largest private companies in the U.S. Unlike our competitors, who are accountable to shareholder returns, D&Z is not. We take a long-term approach to both our success and the success of our customers. We hire, place, and train the people who help bring big ideas to life. We put people to work, protect our freedoms, and help our customers power and improve the world.
